

## Minutes of the Resource Management Work Group

October 18, 2000

The Resource Management Work Group met Oct. 18, 2000 at Weymouth Woods, with the following members present: Bill Parsons, Harold Brady, Jackie Britcher, Debbie Robertson, Scott Hartley, Scott Brewer, and Julian Johnson.

Chairman Bill Parsons called the meeting to order and distributed a proposed agenda.

The group discussed the need to obtain good maps or aerial photos so that areas with maximum potential for benefits can be identified.

Following a discussion, it was the consensus of the group that it needs to first identify tracts with good potential for benefits from habitat improvement. Recommendations can then be made for specific tracts, tailoring the recommendations for each tract so that it is convenient and beneficial for the landowner to follow the plan. This process should ultimately include helping landowners find sources of funding for management practices.

The group decided that land ownership maps were needed to proceed further, so the meeting was adjourned until appropriate maps could be obtained. The next meeting is to be Nov. 27, 2000, at 9:00AM, at Weymouth Woods.

The meeting was adjourned by Chm. Parsons.

Respectfully Submitted,  
Julian Johnson, Secretary
