

August 13, 2001 Resource Management Work Group

The Resource Management Work Group met August 13, 2001, at Weymouth Woods, with the following members present: Susan Miller, Jackie Britcher, A.B. Crawford, Scott Hartley, Rick Studenmund, Harold Brady, Jerry Holder, Scott Brewer, Julian Johnson, Pete Campbell, and Brady Beck.

In the absence of Chairman Bill Parsons, the meeting was called to order by Susan Miller. The group reviewed the minutes of the July 9 meeting, along with summaries of the brainstorm session and goal outlines which were compiled by Craig Clarke after the meeting.

A brief discussion was held concerning the need to educate private forest landowners on tax breaks available through Land Use Valuation, as it appears many landowners are not aware of this option.

The group then began to work with the goals established at the July 9 meeting, developing strategies to accomplish these goals. Strategies were suggested and discussed for two of the four goals. A summary of these goals and strategies is attached to these minutes. As there was insufficient time to continue with the other two goals, the group decided to continue the discussion at the next meeting, on August 28, 2001, at 9:00 AM, at Weymouth Woods.

The meeting was then adjourned by Susan Miller.

Julian Johnson, Secretary
